

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

ORDER NO. 80-44

AMENDING NPDES PERMITS FOR THE
DISCHARGES CITED HEREIN

The California Regional Water Quality Control Board, San Francisco Bay Region,
(hereinafter called the Board) finds that:

1. The entities listed below, hereinafter called the dischargers,
previously have been issued National Pollution Discharge Elimination
System (NPDES) Permits in the Board's Orders indicated:

	NPDES Number	ORDER Number	DATE Issued
Benicia, City of	CA0038091	77-42	5/17/77
Central Contra Costa County Sanitary District	CA0037648	79-77	6/19/79
Contra Costa County Sanitation District No. 7A	CA0037940	78-69	8/15/78
Dublin San Ramon Services District	CA0037869	79-68	6/19/79
East Bay Dischargers Authority	CA0037869	79-68	6/19/79
East Bay Municipal Utility District, Special District No. 1	CA0037702	79-100	8/21/79
Fairfield, City of	CA0038024	79-48	5/15/79
Hayward, City of	CA0037869	79-68	6/19/79
Livermore, City of	CA0037869	79-68	6/19/79

West Contra Costa Sanitary District	CA0037974	79-65	6/19/79

2. The U. S. Environmental Protection Agency has promulgated regulations requiring that certain municipal waste dischargers develop and implement a Local Pretreatment Program in accordance with a Compliance Time Schedule. Such programs empower a municipality to control the nature of industrial wastes discharged into sanitary sewers. Using such controls effectively will protect the sewerage structures from damage, protect the treatment processes from interference, and prevent the discharge of pollutants which the processes cannot adequately remove or modify.
3. The dischargers named above are subject to these federal regulations.
4. These projects involve the continued operation of publicly-owned facilities with negligible or no expansion of use beyond that previously existing. Consequently, they will not have a significant effect on the environment based upon the exemption provided in Section 15101, Title 14, California Administrative Code.
5. These regulations do not require reimbursement of costs to local government because of Section 2209 of the Revenue and Taxation Code.
6. The Board has notified the dischargers and interested agencies and persons of its intent to amend permits for the discharges and has provided them with an opportunity for a public hearing **and an opportunity** to submit their written views and recommendations.
7. The Board, in a public meeting, heard and considered all comments pertaining to the discharges.

IT IS HEREBY ORDERED that the dischargers, in order to meet the provisions contained in Division 7 of the California Water Code and regulations adopted thereunder and the provisions of the Federal Water Pollution Control Act and regulations and guidelines adopted thereunder, shall comply with the following:

- A. The NPDES Permits listed in Finding 1 of the Order are amended by adding to each of them the attached "Standard Provisions and Reporting Requirements for a Pretreatment Program."
- B. This Order shall serve to amend the National Pollutant Discharge Elimination System Permits described above pursuant to Section 402 of the Federal Water Pollution Control Act, or amendments thereto, and shall take effect at the end of ten days from the date of hearing, provided the Regional Administrator, has no objections.
- C. This Order expires on August 5, 1985.

I, Fred H. Dierker, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region, on September 16, 1980.

FRED H. DIERKER
Executive Officer

Attachments: Each of the Orders listed
in Finding 1.

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

STANDARD PROVISIONS AND REPORTING REQUIREMENTS
FOR A PRETREATMENT PROGRAM

1. The discharger is required to develop a pretreatment program under the authority of Section 307(b) and 402(b) (8) of the Clean Water Act.
2. The discharger shall ensure compliance with pretreatment standards promulgated under Section 307(b) and (c) of the Clean Water Act.
 - (a) Compliance by existing industrial sources with pretreatment standards shall be within 3 years of the date of promulgation of the standard unless a shorter compliance time is specified.
 - (b) Compliance by new sources of industry with promulgated pretreatment standards shall be required upon commencement of discharge.
3. The discharger must submit any request to modify pretreatment standards in accordance with federal requirements at the time of application for pretreatment program approval or must wait until the waste discharge requirements are reissued.
4. The discharger shall develop and implement a pretreatment program which shall consist of:
 - a. A local pretreatment ordinance or equivalent
 - b. A use permit system
 - c. A program of inspection to ensure compliance with the ordinance and use permit
 - d. An enforcement program sufficient to obtain compliance with the provisions of the ordinance or use permit.
5. For implementation of Provision 4 above, the discharger shall comply with the time schedule shown in Table "A" for the specified tasks. However, the dates shown below may supersede those of Table "A" for dischargers scheduled for a Step 2 or 3 grant offer as indicated below.

<u>Task</u>	<u>Report of Compliance Due</u>
<div><div>a. Submit the results of an industrial user survey.</div><div>b. Submit an evaluation of the legal authority necessary for the administration and enforcement of the requirements of Sections 307(b) and (c) and 402(b)(8) of the Clean Water Act.</div></div>	Complete these tasks to be eligible for a Step 2 grant offer after 31 December 1980.

<u>Task</u>	<u>Report of Compliance Due</u>
c. Submit a determination of technical information necessary to develop the pretreatment ordinance or other means of enforcing pretreatment standards.	Complete this task to be eligible for a Step 2 grant offer after 31 December 1980.
d. Submit an evaluation of the financial programs and revenue sources to implement the program.	
e. Submit design of a monitoring program which will implement the requirements of the pretreatment program.	
f. Submit a list of monitoring equipment required to implement the pretreatment program and a description of municipal facilities necessary for monitoring and analysis of industrial wastes.	Complete these tasks, in addition to those above, to be eligible for a Step 3 grant offer after 31 December 1981.
g. Submit specific effluent limitations for the general prohibited pollutants (40 CFR 403.5) which shall be incorporated into the pretreatment ordinance.	
h. Submit request for pretreatment program approval.	
6. Adequacy of any pretreatment program shall be determined by conformance with the State Water Resources Control Board's "Guidelines for Determining the Effectiveness of Local Source Control Programs" and EPA regulations governing pretreatment contained in 40 CFR 403.	
7. The terms and conditions of the pretreatment program, when approved, shall be enforceable through these waste discharge requirements.	

NOTE: Reports of compliance must be filed with this Board and a duplicate must be filed with the U. S. Environmental Protection Agency
Region IX, Enforcement Division
215 Fremont Street
San Francisco, CA 94105
